

Biography of Director Bob Feldman

I grew up on East Coast and obtained a BS in Civil Engineering from CCNY and a MS in Civil Engineering Systems from MIT. I spent the early part of my career on the eastern Seaboard, and the last 30 years in Saratoga, CA.

I have a broad career in Engineering, and have been an Information Technology Executive in Engineering, Information Services, Manufacturing and Healthcare Organizations. My most recent experience was with Santa Clara County as CIO of Santa Clara Valley Health and Hospital System. I am presently retired and was recently appointed to the CCWD Board of Directors on August 16, 2006.

As a recent transplant, by choice, to the Coastside with my wife Joyce, I am committed to serving the community as a member of the CCWD Board of Directors. I believe the Coastside is a special place and I want to help enhance that. I intend to perform my role with integrity and to exercise good judgment and common sense in meeting the needs of the residents of the Coastside. I bring a fresh and impartial viewpoint to the table. In addition to handling the key programs underway in an expeditious manner, my focus will be to add value to the communication process between CCWD and the community, which will result in improved timeliness and availability of information about CCWD and its programs.
