# California Voting Rights Act (CVRA)

2

- Under the Federal Voting Rights Act (passed in 1965), a jurisdiction must fail 4 factual tests before it is in violation of the law.
- The California VRA makes it significantly easier for plaintiffs to force jurisdictions into “by-district” election systems by eliminating two of the US Supreme Court *Gingles* tests:
  - ▣ (crossed-out tests are Federal Tests that plaintiffs no longer have to prove to show a violation of the California law)
  - ~~1. Can the protected class constitute the majority of a district?~~
  - 2. Does the protected class vote as a bloc?
  - 3. Do the voters who are not in the protected class vote in a bloc to defeat the preferred candidates of the protected class?
  - ~~4. Do the “totality of circumstances” indicate race is a factor in elections?~~
- Liability is now determined only by a statistical test for a correlation (not causation) between ethnicity and voting

# CVRA's Financial Impact

3

- No jurisdiction has successfully fought a CVRA lawsuit
- Palmdale, Santa Clara and Santa Monica fought “on the merits.” All lost.
  - ▣ Santa Monica and Santa Clara are appealing.
  - ▣ Palmdale spent about \$1.8 million, Santa Clara about \$800,000, and Santa Monica between \$5 and \$8 million, just on their defense.
  - ▣ Santa Monica plaintiffs requested \$22 million
  - ▣ No jurisdiction has won a case.
- Key settlements:
  - ▣ Palmdale: \$4.7 million
  - ▣ Santa Clara: \$3.16 million
  - ▣ Modesto: \$3 million
  - ▣ Highland: \$1.3 million
  - ▣ Anaheim: \$1.1 million
  - ▣ Whittier: \$1 million
  - ▣ Santa Barbara: \$600,000
  - ▣ Tulare Hospital: \$500,000
  - ▣ Compton Unified: \$200,000
  - ▣ Madera Unified: about \$170,000
  - ▣ Hanford Joint Union Schools: \$118,000
  - ▣ Merced City: \$42,000

- ❑ Switched (or in the process of switching) as a result of CVRA:
  - ❑ At least 215 school districts
  - ❑ 34 Community College Districts
  - ❑ 126 cities
    - For comparison, before passage of CVRA only 29 California cities used by-district elections.  
With all of the CVRA-driven changes we have gone from 29 to over 150 cities
  - ❑ 1 County Board of Supervisors
  - ❑ 35 water and other special districts.

# Population Density

There are three distinct pockets of relatively dense population, with sparsely populated areas in between.

North: 4,893 (1.37 zones)

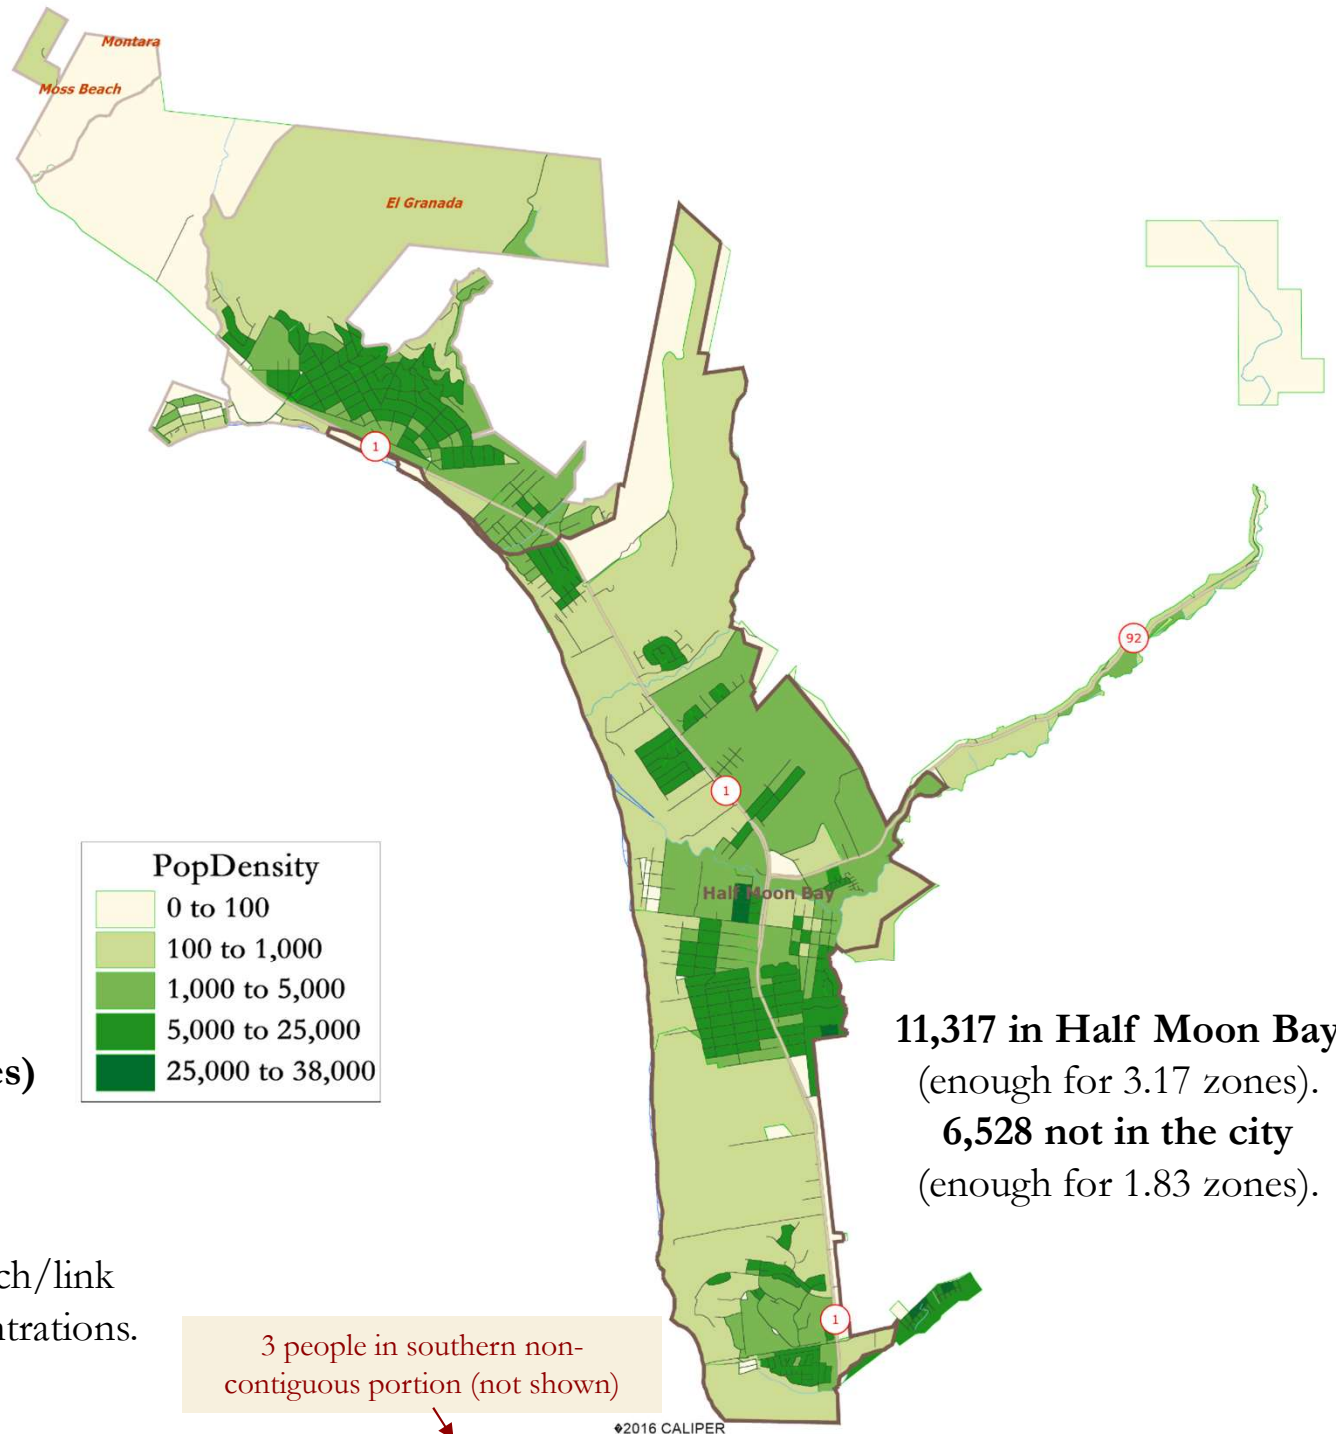

Central: 6,869 (1.92)

South: 2,651 (0.74)

Other: 3,432 (0.96)

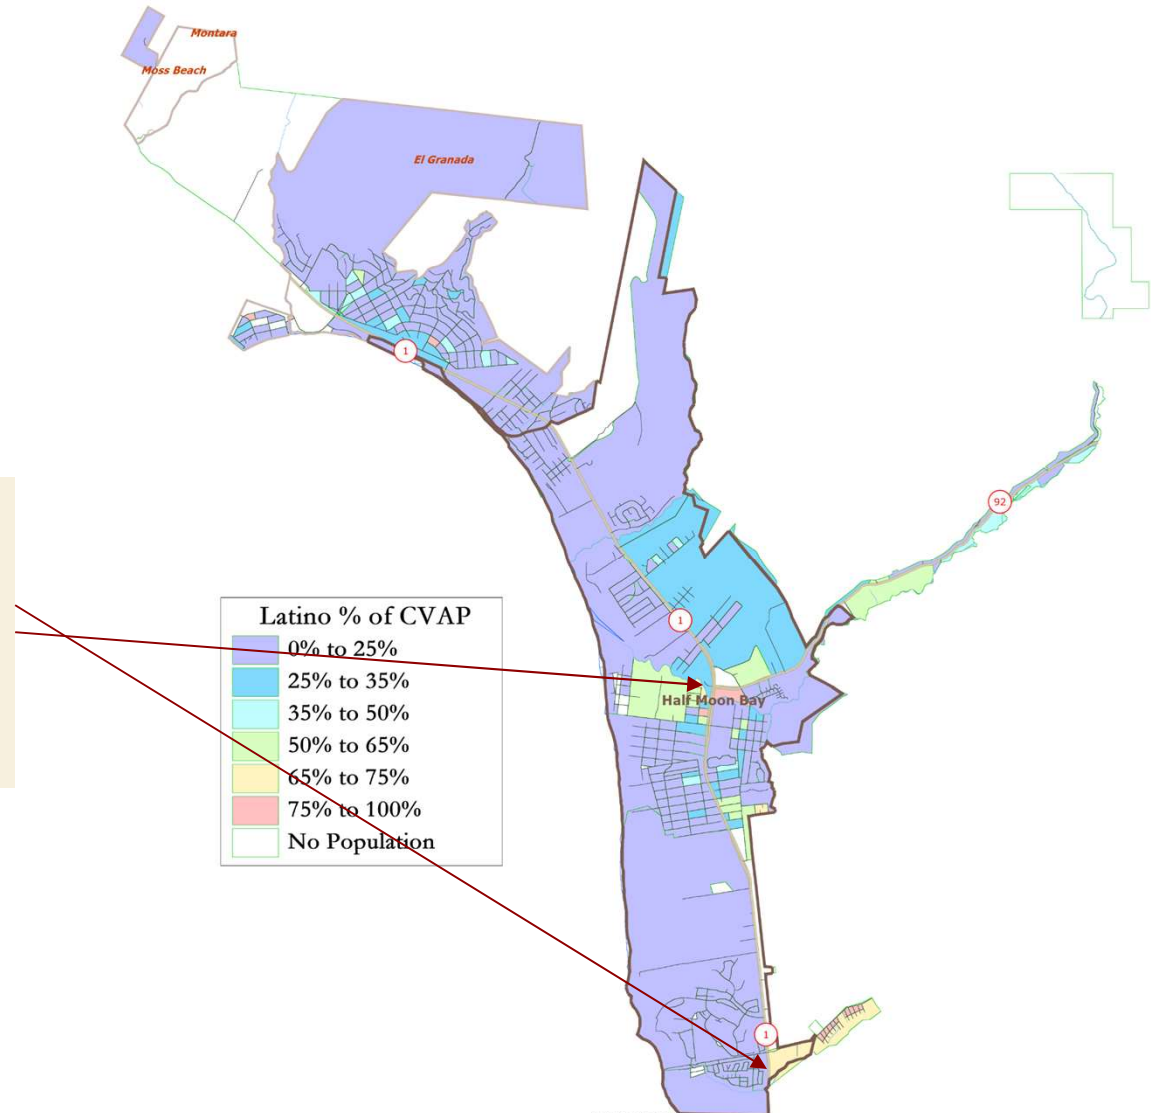

Some zones will have to stretch/link between the population concentrations.

**Latinos are particularly concentrated around the Hwy 1 / San Mateo Rd (Hwy 92) intersection, and in the south along Miramontes Rd.**

# Defining Communities of Interest

## 1<sup>st</sup> Question: what is your neighborhood or community of interest?

**A Community of Interest is generally defined as a neighborhood or community of shared interests, views, problems, or characteristics.**

Possible community feature/boundary definitions include:

- ❑ School attendance areas
- ❑ Natural neighborhood dividing lines, such as highway or major roads, rivers, canals, and/or hills
- ❑ Areas around parks and other neighborhood landmarks
- ❑ Common issues, neighborhood activities, or legislative/election concerns
- ❑ Shared demographic characteristics
  - ▣ Such as similar levels of income, education, or linguistic isolation

# Defining Communities of Interest

11

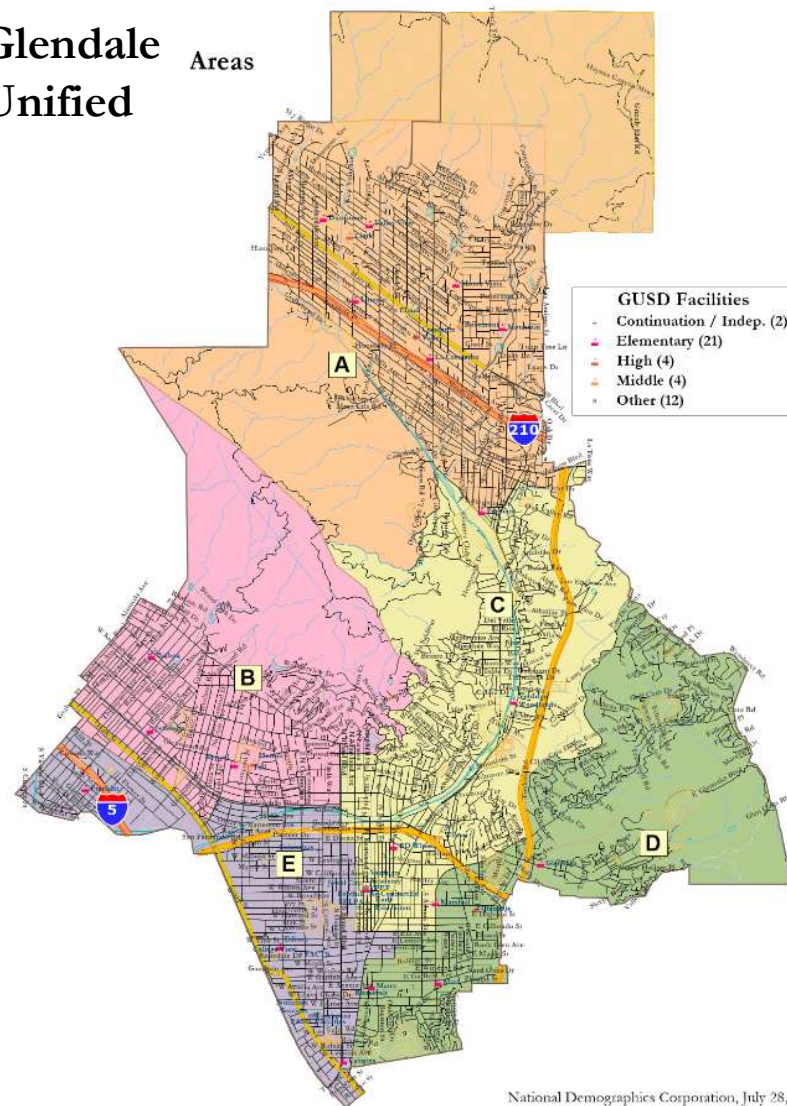

**2<sup>nd</sup> Question: Does a Community of Interest want to be united in one district, or to be divided to have a voice in multiple elections?**

# Sample Multiple-Representative Maps

Examples of maps where a desire to have all members touch downtown (Pasadena) or rural areas (Central), or as many neighborhoods as possible (South Pas), led to policy-driven but non-compact maps.

# Half Moon Bay Maps

# Key Concerns in Half Moon Bay

15

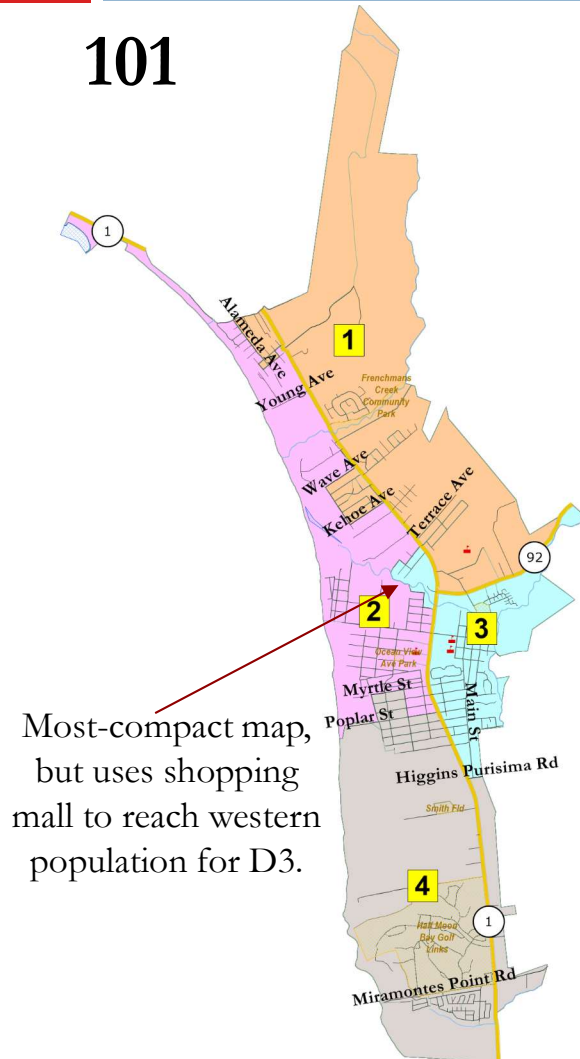

1. Limited public input
2. Shared interests of seniors in Canada Cove (in the south) and Lesley Gardens (on east side of Main St above Arnold Way)
  - ▣ Some felt the Canada Cove mobile home park should not be with the significantly different, though adjacent, Ocean Colony
  - ▣ But other Councilmembers preferred the much more compact approach of Canada Cove with Ocean Colony
3. Desire for multiple districts touching Main Street (downtown)
4. Desire to respect voter wishes (avoid pairing Councilmembers)
  - ▣ Except one pairing required in any 4-district map

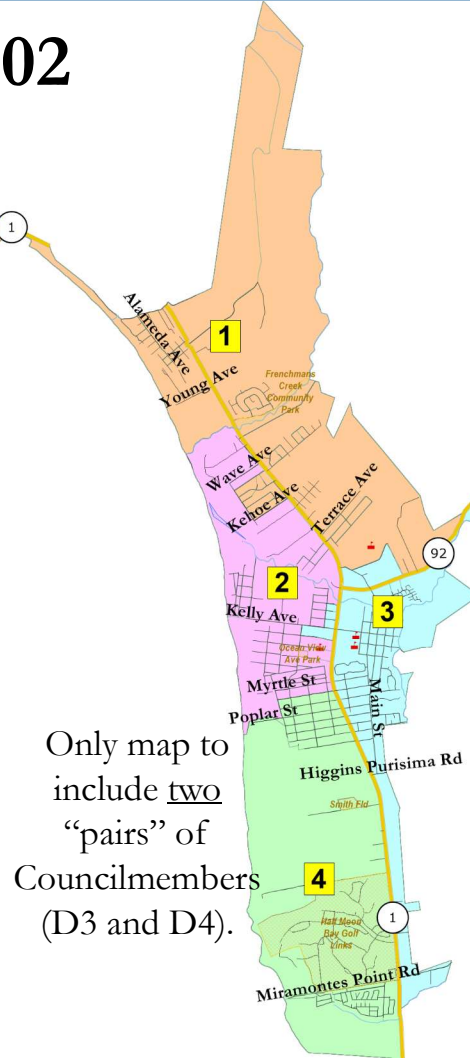

# Initial Maps 101 - 103

101

102

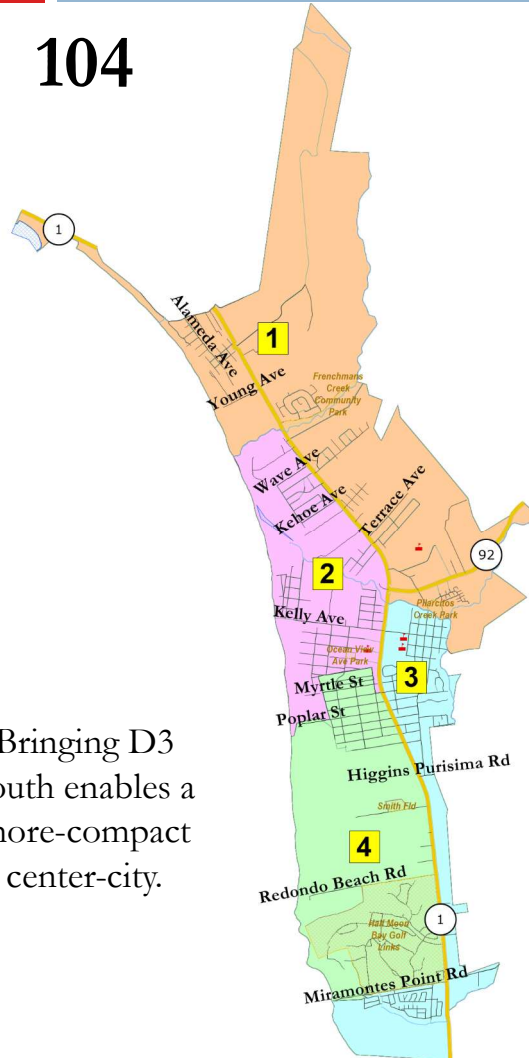

103

# Initial Maps 104 - 106

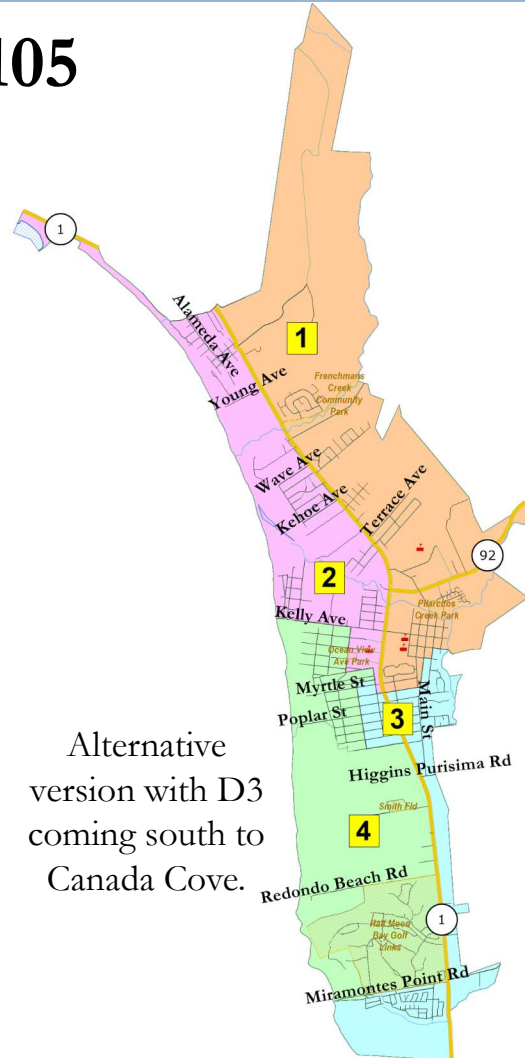

17

104

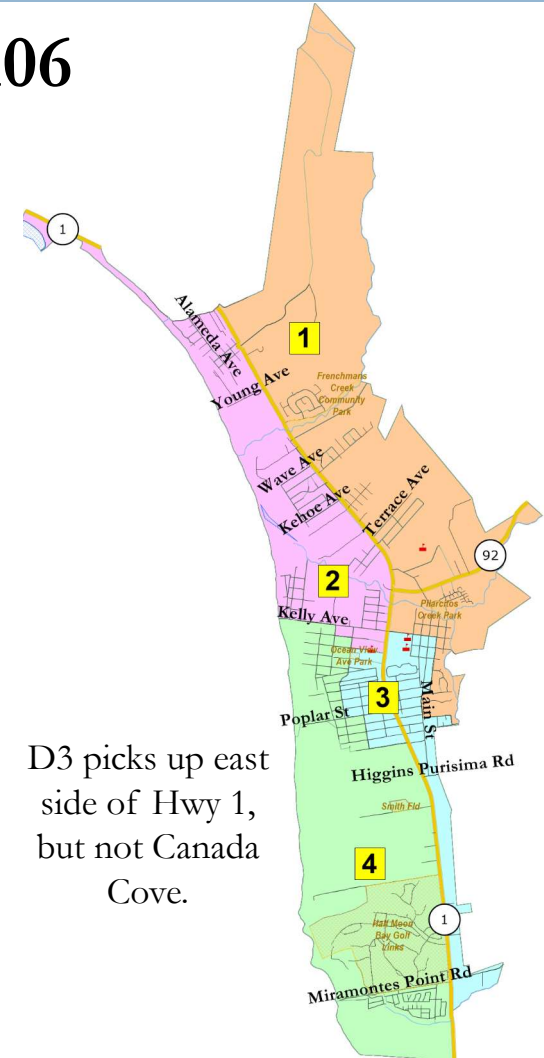

Bringing D3 south enables a more-compact center-city.

105

Alternative version with D3 coming south to Canada Cove.

106

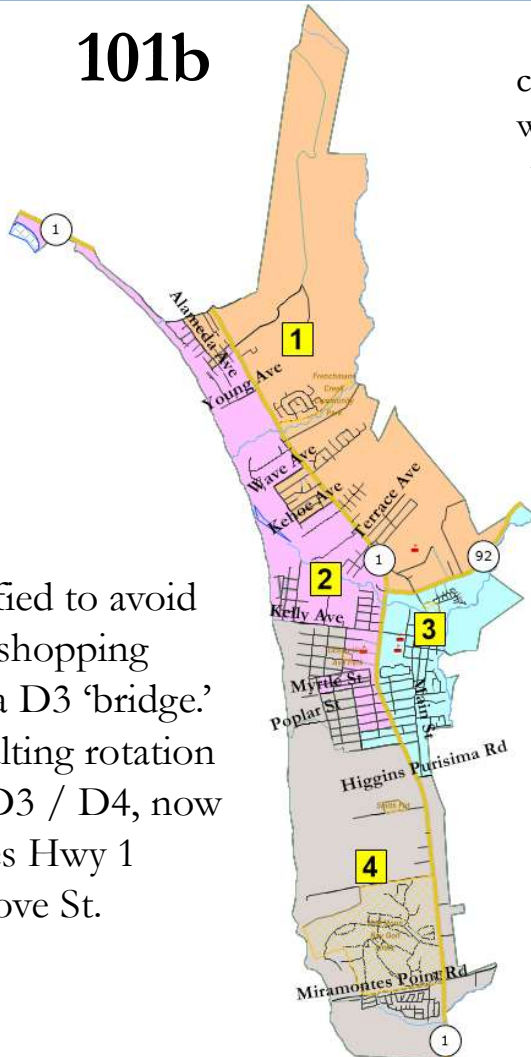

D3 picks up east side of Hwy 1, but not Canada Cove.

# Half Moon Bay Focus Maps

101b

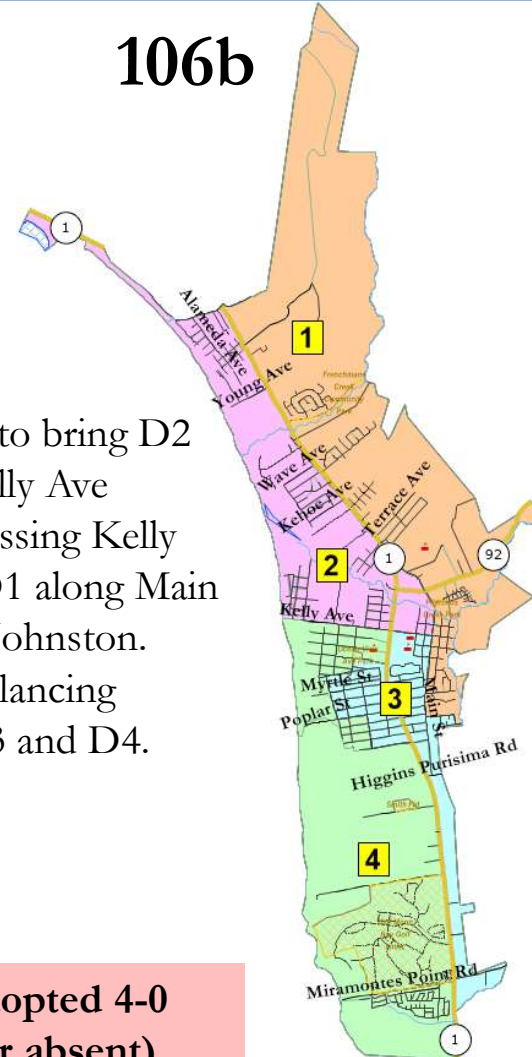

101 modified to avoid using the shopping center as a D3 'bridge.' After resulting rotation of D2 / D3 / D4, now D3 crosses Hwy 1 below Grove St.

Council had decided connecting Canada Cove with Lesley Gardens was too much of a 'stretch' district.

106b

106 modified to bring D2 east above Kelly Ave instead of crossing Kelly and to align D1 along Main St instead of Johnston. Population-balancing changes to D3 and D4.

Map 106b adopted 4-0 (one member absent).

## Coastside Discussion

19

1. What is your neighborhood or “community of interest”?
2. Do you prefer your neighborhood be kept together in one trustee area, or have multiple representatives?
