

Investing in Water Infrastructure To Better Serve the Coastsides

In June, 2024, the District completed a 3-Year, \$10 million project to upgrade the Nunes Water Treatment plant.

Coastside County Water District is committed to providing our customers with reliable, high quality drinking water and services, while maintaining its facilities and infrastructure. The District's capital improvement program provides that the District's infrastructure is replaced at the end of its life cycle and upgraded to meet current water industry standards.

RECENTLY COMPLETED PROJECTS

COST	DESCRIPTION	COMPLETION DATE
\$10,450,000	Nunes Water Treatment Plant Improvements	June, 2024
\$500,000	Magellan/Hwy 1 & Alameda Avenue Pipeline Restorations	June/July, 2024
\$416,000	Poplar Street Water Main Replacement	February, 2024
\$300,000	Myrtle/2 nd Avenue Valve Replacements	June, 2024

In Fall 2024, the District will embark on an \$11 million project to replace two aging tanks at Carter Hill (near the Nunes Water Treatment Plant.)

The Carter Hill Prestressed Concrete Tank and Seismic Upgrades project will involve the replacement of two steel tanks built in the 1950's with a 2.1 million gallon prestressed concrete tank. The new tank will require less maintenance and has an expected useful life of up to 100 years.

FY2024-2025 to FY2033-2034 10 Year Capital Improvement Program \$69 Million
